Esslingen (Stuttgart region), DE

I design product experiences with research depth: flows, prototypes and interfaces that stay clear under complexity.

01 / EXPERIENCE

2024–2026

UX Design

gyde, Stuttgart · internship, then working student

- Designed features across the full product process: from research to flows, wireframes and final UI.
- Worked closely with product management and engineering in an agile team.
- Contributed to design handoffs and the evolution of the design system.

2022–2024

Audio Editor

German UPA · UX & Usability Podcast

- Edited and post-produced the podcast, collaborating with the UX community.

02 / EDUCATION

2021–2026

B.Sc. User Experience

Aalen University · grade 1.7

- Focus areas: user research, interaction design, usability testing, visual design, product management.
- Bachelor thesis (grade 1.8): AI-supported design handoffs in agile product teams, case study at gyde. Analysis of 886 tickets, complemented by 5 interviews.

2017–2021

Teacher Training (Physics & History)

PH Ludwigsburg · pivoted towards UX

- A deliberate change of direction: from teaching knowledge to designing user-centered products.

03 / STACK
